VARIANCE APPLICANT'S GUIDE

NOTE TO THE PUBLIC

Please use this check list to determine whether your application is complete before you bring it in to file. If your application is not complete, it may not be accepted for processing.

PART I – DOCUMENTS

For both the Administrative and Standard Variance the following documents must be included in the application at the time of submittal.

☐ **Application** (DPLU #346). Make sure all the lines in the front page are filled in. Most Variances do not involve an engineer so for that section put N/A. The signature at the bottom must be the owner or the Authorized Agent of the owner. If an Authorized Agent be sure to include a letter of Authorization. The back will be filled in by staff at intake.

☐ **Supplemental Application** (DPLU #346S). The purpose of the Supplemental Application is to provide a precise description of the proposed Variance(s). Include the number of The Zoning Ordinance Section that specifies the requirement, the Development Regulation requirement and the Variance requested.

☐ **Applicant's Statement of Justification.** Section 7107 of The Zoning Ordinance requires the six (6) findings be made before a Variance can be granted. If any of the findings cannot be made, the Variance must be denied. Therefore, it is important that the applicant be thorough in completing this part.

- 1. There are special circumstances applicable to the property, including size, shape, topography, location or surroundings, that do not apply generally to property in the vicinity and under identical zoning.**

Describe conditions which are special to this property in comparison to other properties under identical zoning in this vicinity. These special circumstances can relate to problems involving topography, legally imposed encumbrances such as easements and roads, unusual size and configuration of the property, and areas of inundation including watercourses, swamps and streams. **Special circumstances do not include development designs which represent a self-imposed hardship.**

- 2. That, because of those special circumstances, the strict application of the Zoning Ordinance deprives the property of privileges enjoyed by other property in the vicinity and under identical zoning classification.**

Describe the privileges enjoyed by other property in the vicinity under identical zoning that are being deprived by the strict application of the Zoning Ordinance. Do not include structures or activities that are operating without permits (illegally).

DPLU-260 (01/11)

- 3. That granting the variance or its modification is subject to such conditions as will assure that the adjustment thereby authorized shall not constitute a grant of special privileges inconsistent with the limitations upon other properties in the vicinity and zone in which such property is situated.**

Describe how the requested variance will not constitute a grant of special privileges inconsistent with the limitations on other properties in the vicinity

- 4. That the variance will not authorize a use or activity which is not otherwise expressly authorized by the applicable use classification.**

Describe how the use or activity is expressly authorized by the applicable use classification.

- 5. That granting the variance or its modification will not be materially detrimental to the public health, safety or welfare, or injurious to the property or improvements in the vicinity and zone in which the property is located.**

Describe how the requested Variance will not be detrimental to the public health, safety or welfare or injurious to property in the vicinity. This description may include the assurance of adequate sight distance for traffic, adequate separation of the proposed project from other properties or structures, concurrences of other public agencies such as the Department of Environmental Health and adequate screening such as vegetation and topography.

- 6. That granting of the Variance will not be incompatible with the San Diego County General Plan.**

The granting of Variances relating to setbacks, heights and vehicle/bicycle parking are not subject to General Plan conformance and requests for such Variances should state that they are exempt.

However, review of General Plan compatibility is required on Variances involving lot area reduction or increase in the number of dwelling units. Relevant information may include zone and lot size in the surrounding area.
